NUCLEAR STEAM TURBINE SERVICES

TURNKEY INSPECTIONS

Power Services Group (PSG) has the ability to provide full turnkey services for nuclear steam turbines and generators for most OEM manufacturers. PSG provides total turnkey outage performance including technical direction, project management & coordination, supervision, labor, tooling, repairs, parts sourcing and/or manufacturing, and start-up support.

We support fossil and nuclear steam turbines up to 1,300MW for all major OEMs. We are the alternative to the OEM for all of your nuclear steam turbine outage needs.

SERVICES PROVIDED

- Open, Clean, Inspect, Close (Outage Services)
- Bearing Inspection and Repairs
- Valve Inspection and Repairs
- Valve Component Reverse Engineering
- Valve Part Manufacturing
- Lifting and Rigging Oversight
